Valuation Options
For PUCO and Local Moves

The customer must establish a level of valuation protection for the household goods and/or product being transported. Please read the following options and select the one you feel is adequate for your relocation. Your initials and the value you are declaring must be noted to the right of your choice.

1. Replacement Coverage:

There are 3 deductibles to choose from: \$0, \$250 and \$500. The customer must establish an amount that is equal to or greater than \$5.00 per pound. HMS will then multiply the shipment weight by \$5.00 to determine the minimum value. Minimum Replacement Coverage is \$15,000.00 for your product value. The costs are as follows:

1) No Deductible

\$9.00 for every \$1,000 value
 Example: \$25,000 x .009 = \$225.00
